Teaching & Learning Fair Presentation
Abstract 2017-300

Saturday, June 3, 2017
9:40 AM
Room: Sopris

This presentation showcases the use of ‘virtual mobility’, involving 115 second-year Sport Management students in UK and USA working in groups to collaboratively submit a summative assessment; a process that allows students unwilling to travel to engage in internationalisation. This display presents student and teacher reflections on the project.
