Teaching & Learning Fair - Problem Based (School Sport)  
Teaching & Learning Fair Presentation  
Abstract 2018-306  
Saturday, June 9, 2018  
9:20 AM  
Room: Halifax

Cultivating cooperative partnerships can lead to collaborative opportunities which strengthen problem solving and critical thinking skills, student accountability and knowledge application (Nilson, 2010). This Problem-based learning project involved a unique partnership, the execution of two sports events, and celebrates student success. Handouts available; project example for review.
