Teaching & Learning Fair Presentation  
Abstract 2019-203  
Friday, May 31, 2019  
2:10 PM  
Room: Borgne

Collaborative learning has been found to have many benefits including development of critical thinking skills, co-creation of knowledge and meaning, reflection, and transformative learning (Palloff & Pratt, 2005). But with the logistical obstacles of an online class, it can be difficult to implement successfully. Effective online group activities will be explored.
