Teaching & Learning Fair Presentation  
Abstract 2019-303  
Saturday, June 1, 2019  
9:20 AM  
Room: Borgne

Students will act as a community project director for their hometown. They are tasked to create walking/running routes using Google Maps for a local recreation club that meets on a weekly basis. The routes should be created to provide participants with options depending on their abilities, experience, and fitness levels.
